- AC adaptor and adaptor cord
- Power cord/cable
- Documentation, including this Quick Start document and a Standard Limited Warranty
- Other components, depending upon model

### California Prop 65 Warning

**▲ WARNING** This product contains chemicals, including lead, known to the State of California to cause cancer and birth defects or other reproductive harm. ***Wash hands after handling.***

- ▲ CAUTION**
- Avoid prolonged physical contact with the underside or surface of the computer.
  - Computer base and palm rest can become hot! Avoid prolonged contact to prevent heat injury to skin.

*Note: The computer's battery and memory are not accessible by the user.*

### Notice

- Certain computer chassis are designed to accommodate all possible configurations for an entire product series. Your select model may not have all the features and specifications corresponding to all of the icons or switches shown on the computer chassis, unless you have selected all those features.
- **Subject to Change.** Product specifications, configurations, prices, system/component/options availability are all subject to change without notice.

## Getting started

### Connect to a power source

Assemble the power cord/cable and AC adaptor and then connect it to your Chromebook and a live electrical outlet. You are now ready to start using your Chromebook.

### Connect to the Internet

Connect to a network to take full advantage of your Chromebook's features.

### Register your Chromebook

Enhance your ownership experience by taking a few minutes to register your Toshiba Product at **register.toshiba.com**. Completing Product registration allows Toshiba to provide you with Product information updates, special offers and promotions. Failure to complete Product registration will not diminish your rights under the Standard Limited Warranty.

# Start up

To start using your Chromebook you'll need a Google account and access to a network. If you don't already have a Google account you can create one when you get to the Sign in screen.

Next open the lid to the computer, the Chromebook will turn on automatically. The first screen displayed will be the Connect screen. Here you will select the language used, the keyboard style used and the network you'll be connecting to.

After selecting a network you will be asked to supply the information needed to connect to the network. If you do not know the information please contact your internet provider or network administrator.

From there you will be asked to agree to the Terms and conditions set by Google.

Now that you have agreed to the terms and conditions and connected to a network you are ready to Sign in to the Chrome OS. The Sign in screen will ask for your Google email address and password.

On the desktop you'll find an area at the bottom left hand side of the screen called "app launcher". You can open any of the apps "pinned" to the "app shelf" by clicking the appropriate icon. To see a list of all the apps found on your Chromebook simply click the "app launcher" button . To pin an application to the app shelf right click on it and select, "Pin to shelf". To remove apps from the shelf right click and select, "Unpin".

# General Safety Instructions

Please read the following safety and operating instructions before using your Product. Keep the information near your Product for future reference.

To reduce the risk of fire, bodily injury and/or damage to your Product, please observe all of the following instructions:

## **AC Adaptor**

Always use the Toshiba AC adaptor that was provided with your Product or as specified by Toshiba.

## **Base or Palm Rest**

Avoid extended contact between Product base or palm rest and your skin. Under certain operating conditions such as prolonged contact may result in skin irritation and/or heat injury. Consider using a hard computer insulating pad or similarly suitable hard insulating material when using Product on your lap.

## **(Internal) Battery**

Your Product may contain an internal battery for powering the real-time clock. Replacement or service should be done by an authorized Toshiba service provider.

## **Cleaning**

Unplug Product from the electrical outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. The injected combustible gas produced by these types of cleaners may remain inside of your product. The electrostatic spark from the motor or contact point of switch may ignite the gas residue, which could result in an explosion, fire, or burn injury. Instead use a lightly dampened cloth for cleaning in general and remove dust with a dry cloth.

## **Choking Hazards**

Keep Product away from small children. This Product is not a toy and may be hazardous to small children, for example, small detachable parts may be a choking hazard.

## **Disassembly**

Do not disassemble, modify, tamper with or repair your Product.

## **Disposal**

Dispose of Product or any components in compliance with all applicable laws.

## **Unstable Surfaces**

Do not use Product on an unstable table, cart or stand.

## **Operating Environment**

Never expose your Product to excess heat, extremely low temperatures, sudden temperature variations, or dusty environments. This could cause system malfunction, loss of data or damage to Product.

## **Power Cables/Cords and Power Source**

Always use power cables/cords and power sources that comply with the voltage and frequency specifications and requirements of the country of use.

## **Service Provider**

Disconnect Product from the electrical outlet and take Product to an authorized Toshiba service provider if:

- AC adaptor or power cable/cord is damaged.
- Liquid has spilled into Product or an object (such as a screw, staple or paper clip) has entered Product.
- Product has been dropped, subject to shock or impact and/or damaged in some way.
- Noticeable signs of overheating, smoke, deformation, cracks, leaks or unusual odor occur.
- Service is needed on component inside compartments requiring opening or removal of covers.

## **Thunderstorm**

Never operate your Product during a thunderstorm. An electrical surge caused by the storm may cause system failure, loss of data or hardware damage.

## **Wireless Functionalities**

Turn off your Product and/or all wireless functionalities where electronic devices are regulated or controlled or when near a person with any medical electric devices.

## **Water and moisture**

Do not use Product in a wet location. Do not connect/disconnect a power plug/cord with wet hands.
